Partnership To Ensure Your Success

Why Optec?

- Design, engineering, assembly, implementation - all in the USA
- The Optec advantage: 40 years of LED innovation, over 125,000 major installs nationwide
- Indoor, Outdoor Displays greatly enhance information delivery, recall, entertainment value, live action
- LED signage increases visibility & engagement
- Increase dwell time
- Customized builds for real-world performance
- High brightness, contrast, ultra clarity
- Reliable 24/7 operation
- Designed for high-traffic environments
- Long lifespan + low maintenance

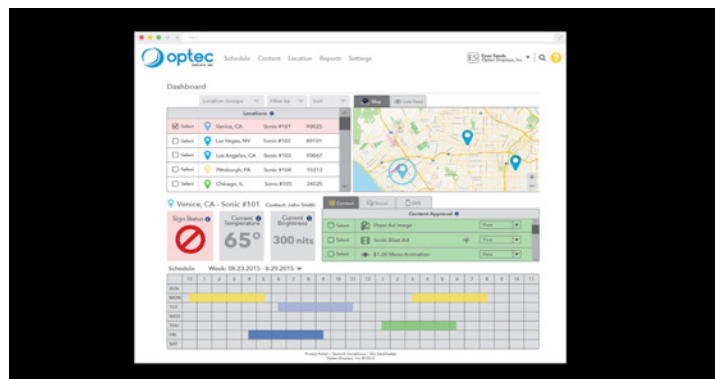

Your concept realized - Your operations optimized.

Whether your application is for Indoor Displays, Outdoor Displays – or a network combining each – Optec offers solutions that are immersive, engaging, customizable, energy-efficient and reliable. All conceived and managed right here in the USA.

Optec's software and control systems provide ease of use and unified operations provide on-demand controls of your display network to approve, schedule and manage content quickly, from anywhere.

Custom Projects

Dedicated Software

Together we go above and beyond expectations.

For 40 years, Optec's teams include conceptual designers, engineers and implementation experts. From earliest stage all the way through installation, your partnership with Optec means we can help bring your vision to life.

Our display solutions are dynamic systems in which each piece is designed to work in synergy: LEDs, cabinet and components, and software unite to enhance capability. Each display is designed and built to our clients' ever-changing needs. And, our network of Signage Dealers (Outdoor), Pro A/V Partners (Indoor) and Content Management System (CMS) Providers are hand-picked, world class service organizations.

We design and engineer solutions to fit our clients' ever-changing needs. Every solution we deliver is unique.
